Subject: Merrimack WQ response

Eric –

I put the e version of the response in the Qgroup at: Q:\Groups\Merrimack Station\Public Notice Comments Response\316(a) Responses

To avoid clogging up the folder I created a new folder for 316(a) responses – I put everything except the doc you are currently working on in there. I thought that way as we get more clutter in the responses folder we won't have to sort through it to find 316a stuff.
